INSULT TO TAIGNY

France Will Not Resent It Now by Forcible Measures.

PARIS, Jan. El-It appears to be certain that the French Government has resolved not to take action with regard to Venezuela until the full report of M. Taigny reaches the Foreign Office. This report is expected to come by way of Washington, where M. Taigny will turn it over to M. Jusserand, the French Em-terstandor.

Will Not Use Force.

The question of demanding an extraordinary credit is held in alexanic for the present. According to authorizative information, Premier Rouvier does not see the necessity at present of using forcible means to obtain reparation for the insult to M. Taigny, and it is probable that he will mainly rely on the air of the influence of the United States with President Castro.

Morocco Question a Factor.

The desire to see in which direction the Moroccan question will turn also forms a factor which restrains France from precipitately burdening herself with another difficult question, the solution of which is possible and which might involve a delicate situation in connection with other powers having dealings with the Venezuelan Government.

Sermon Just Ended.

The disaster occurred while a collection was being taken up. The pastor had just concluded his sermon, the text of which was "Why Sit We Here Until We Die!" Following the collection there was to have been a baptism. Some of the colored people had left the church and the others were about to go. As the pastor was arranging the pulpit preparatory to beginning the baptismal service, a woman in one of the front rows gave a loud shrick of "fire."

Pastor's Efforts Pruitless Today passed quietly although all the workmen were at liberty, and tonight St. Petersburg is sleeping tranquilly. There is none of the apprehension of a year ago. The aspect of the capital is rear ago. The safet of the palace square, which was then glexning with watchfires of the troops, tonight is entirely deserted and a handful of horsemen are patrolling the Nevsky prospect and the

When the rush started those in the rear of the church did not fully realize what was wrong and were slow to move. The frantic shrieking of the women and children became louder and more general and many were knocked down in the two asistes of the church. Then came the terrible rush down the stairs. For some unknown reason everybody tried to get down the left side of the building, comparatively few attempting to leave by the right stairway. right stairway

the Court.

ST. PETERSHURG, Jan. E.—The sentence of Alexis Alexievitch Souverin, editor of the Russ, to a year's imprisonment in a fortress for inciting the people to high freasen by publishing proclamations and statements designed to instigate riot, sedition and armed revoit, and tending to cause the bankrupter of the state, was the general topic of conversation in the capital today. As M. Souverin is a member of the nobility, his case must be reviewed by the Emperor.

The court has decided with a view to mitigation to recommend a commutation of the sentence to three months. Conviction and sontence, however, is a heavy blow to an editor of M. Souverin's standing. One eye-witness says that perhaps a dozen persons got safely down the stairs when several people tripped and fell, and caused the narrow way to become jammed. Several men on the first floor attempted to hold the people back, but were knocked down, and then the human stream came tumbling down. The weaker ones fell only to be trampled upon and crushed by those coming from behind.

All Terrors-Stricken. All Terror-Stricken.

The horrible ehrieks sent up by the prostrate persons added to the confusion and by this time even the cooler ones in the rear of the fighting mass of men, women and children became terror-stricken. WASHINGTON, Jan 22.—Convinced of the sincerity of the assurances received from France regarding her loyalty to the Monroe doctrine, and all that it involves, the Washington Government has given the Government a free hand in the execution of the programme for the solution of the Venezucian problem.

The first move in the execution of the French programme may be expected at any time, but in this point the French Government is observing the strictest secrecy, the orders to the squadron going direct from Paris and not through the embassy here. The terrific crush in the bends of the The terrific crush in the bends of the stairs became so great that the balustrade, which was only a frail, wooden affair, gave way. There was a terrific crush as half a hundred persons were precipitated to the floor, a distance of about ten or twelve feet. This heightened the intensity of the panic and the rush became an awful jam.

Lives Crushed Out.

The pastor of the church, a man of powerful physique and strong voice, continued to appeal to the crowd in the rear to stop their rush, but none would heed. Over the prostrate forms the crowd swarmed, crushing the life out of those who were unable to extricate themselves. Made Quick Exit.

In the confusion some of the worshipers thought of the narrow door on the right side of the pulpit and made a quick exit that way, which action on their part probably saved the lives of a number of those who had been caught in the crush.

Terrible Sight Presented.

When those who came down the front stairs had left the building a terrible sight presented itself to the rescuers. The first floor and the stairway to the bend were covered three deep with the dead and dying. On the street hundreds were shrieking for help and looking for their missing loved ones.

Freston Industrial school of California, later escaped from the Goldfield Jail and came within an ace of breaking out of the Sait Lake jeil. As previously told in The Tribune, Harrison is young in years only. For three or four years he has been looked upon as one of the most desperate young criminals in the Golden State, and his record since reaching Sait Lake bears out the statement.

After being sent to the Preston institution, Harrison escaped and went to Ogden, where he was later arrested. After being returned to Preston he made a second escape, binding, gagging and robbing

Makes Attempt at Escape.

Recently Harrison made an attempt to escape from the city Iail. Hiding on top of the cells while allowed his liberty in the corridor, the Jailer failled to miss him, and about 8 o'clock the prisoner started through the brick wall by the sid of a large nail and a piece of iron almost as fast as one could break through a wooden partition with an ax. A lucky move on the part of the night jailer, who discovered Harrison in the corridor, prevented the escape, but within another minute be would have been out. A hole almost large enough to admit his body had been made through the wall, and a rope composed of bed clothes and electric light wire was within reach by which he could have let himself down to the ground some thirty feet below.

When Sheriff Sebole left for California yesterday, he had his prisoner securely handcuffed, as the soung man would jump through the window of a moving train as quickly as he would smoke a cigarette. No chances will be taken with him, but by the time he finishes his sentence in California, does time in Nevada and then stands trial for his offenses here he will be several years older, if, indeed, be is not a wiser criminal. The only job that Harrison has admitted doing here was the burglarizing of a room occupied by two Greeks, from whom he secured two watches and a small aum of money

DID HE SLAY WOMAN?

Man Arrested in Denver for Murder in Indiana.

BEDFORD, Ind., Jan 22-Prosecutor Fletcher has telegraphed to the Chief of Police of Denver to hold for identification William Barnes, alias Jackson arrested last night charged with being an accessory to the murder of Sarah C Shaefer. Prosecutor Fletcher said he hoped to identify Barnes as the stranger who was discovered on the boiler of the Brooks-Curtis stone mill about 19 o'clock on the night of the murder.

To Identify Prisoner.

When seen by Night Watchman Schrout, the fellow was drying his clothing, which was dripping water. Schrout says he is positive he could identify the stranger, and it is quite probable that he will be sent to Denver in an endeavor to do so.

Sensational Letter.

The arrest of Barnes was made at the instance of William Annadell of Indianapolis because, as he alleges, of a letter to Clarence Johns an inmate of the Marion County workhouse, purporting to have been written by Mrs. Annadell, who is Johns's sister. The letter is sensational and charges that Barnes is the murderer of Sarah Shaefer.

Denies Writing Document.

A late dispatch from Denver, however, states that Mrs. Annadell denies having written such a letter. An investigation by the police developed that the letter was postmarked Indianapolis but Annadell declares it was sent to this city to a certain person with instructions to mail it here. Detectives of the local department are not convinced that anything will come of the arrest.

Pastor's Efforts Fruitless.

The pastor by this time realized the seriousness of the situation and in a loud voice, which only added to the confusion, called to the terror-stricken people to be seated. No one listened, and despite his frantic appeals a rush started that meant death to many that were in it.

Caught on Stairway.

Pathetic Scenes.

The scenes at the hospitals were pathetic in the extreme. A great crowd of colored people gathered at the doors of each institution, but no one was admitted without a satisfactory reason. Within the buildings the entire house were called upon to assist in ministering to the suffering. An examination of the dead showed that most of them had been suffocated or had died from internal injuries. Of the injured, few if any are likely to die.

The fire was a most trifling affair. A defective flue started a small fire in the chimney which caused some smoke to issue through the crevices in the second floor. Whether the flames were extinguished or burned themselves out is not known, but there was no fire in the building when the firemen set to work.
